The preliminary amendment filed January 04, 2007, which amends claims 1 and 3, and cancels claim 2, has been entered.

The references cited in the Information Disclosure Statements filed September 13, 2004, November 02, 2004 and January 04, 2007 have been considered and are made of record.

Claims 1 and 3 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest an organic light-emitting device in which a layer comprising a compound represented by general formula (1) as defined in present claim 1 is sandwiched between a pair of electrodes.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The reference made of record and not relied upon is considered pertinent to applicant's disclosure.

WO 2005/097940 discloses iridium compounds of present general formula (1) for use in an organic light-emitting device. For example, see I-49, I-50, I-52, I-54 and I-57 on pages 25-26, and OLED2-6 and 2-14 on p. 54. However, this document does not represent prior art.
